

Faith Empire - App Review Guide

Prepared for Apple App Store Review Team Date: February 14, 2026

App Overview

App Name: Faith Empire **Developer:** Brittany Johnson / Decoded Faith Empire **Website:** <https://decodedfaithempire.org> **Version:** 1.0.0 **Category:** Books / Lifestyle **Age Rating:** 4+

Faith Empire is a mobile-first Progressive Web App (PWA) wrapped in a native iOS shell that delivers a fresh Bible verse paired with a plain-language “decoded” motivational message every day at midnight Eastern Time. The app is designed to make the Bible accessible and relatable to modern readers.

How the App Works

Faith Empire loads a web-based application inside a native WebView. The web app is hosted at <https://faithempire.replit.app> and provides the complete user experience. No account or login is required to use the app.

Core Features

1. Daily Decoded Verse (Home Screen)

- A new Bible verse and decoded message appear every day at midnight ET
- Users can share verses via the built-in share button
- Users can save verses to their favorites for later reference

2. Full KJV Bible Reader

- Complete King James Version Bible with all 66 books
- Organized by Old Testament and New Testament
- Chapter-by-chapter navigation
- Tap any verse to highlight it (highlights saved locally on device)

3. The Book of Genesis Decoded

- All 50 chapters of Genesis with 1,533 verses
- Each verse shows three layers: original KJV text, modern decoded translation, and optional context notes
- Tap-to-highlight functionality with local storage

4. Podcast

- In-app audio player for faith-based podcast episodes
- Play, pause, and browse episodes directly within the app

5. Verse Archive

- Browse the full collection of decoded verses
- Filter by category (encouragement, wisdom, strength, peace, etc.)

6. Saved Content

- Favorites: Saved daily decoded verses
 - Highlights: Highlighted Bible and Genesis verses
 - All stored locally on device using localStorage (no account needed)
-

Navigation Structure

The app uses a bottom tab bar with five tabs:

Tab	Description
Today	Daily decoded verse (home screen)
Bible	Full KJV Bible reader
Podcast	Podcast episodes with audio player
Decoded	Decoded books (Genesis)
More	Settings, archive, saved content, about, legal pages

Technical Details

- **Architecture:** React frontend + Express.js backend + PostgreSQL database
 - **iOS Wrapper:** Expo with React Native WebView
 - **Content Delivery:** 100 pre-seeded decoded verses that rotate daily
 - **Data Storage:** Favorites and highlights stored in device localStorage
 - **Network Required:** Yes, for initial load and daily verse refresh
 - **Authentication:** None required
-

Content Details

- All Bible text is from the King James Version (public domain)
 - Decoded messages and modern translations are original content by Brittany Johnson
 - Copyright 2025 Brittany Johnson
 - Book content: “The Book of Genesis Decoded” by Brittany Johnson
-

Privacy & Data

- **No user accounts or login required**
 - **No personal data collected** beyond optional email subscription
 - **No third-party analytics or tracking**
 - Favorites and highlights stored locally on the user’s device
 - Optional email subscription for updates (voluntary, not required for app use)
 - Privacy Policy: <https://faithempire.replit.app/privacy>
 - Terms of Service: <https://faithempire.replit.app/terms>
-

Testing Instructions

1. **Open the app** - It should load to the “Today” tab showing the daily verse

2. **Tap the heart icon** on the daily verse to save it to favorites
3. **Tap “Bible” tab** - Browse books, select a book, read chapters, tap verses to highlight
4. **Tap “Podcast” tab** - Browse and play podcast episodes
5. **Tap “Decoded” tab** - Open Genesis Decoded, browse chapters, read decoded verses
6. **Tap “More” tab** - Access saved content, archive, settings (dark/light mode toggle), about page, and legal pages

Demo Credentials: None required. The app is fully functional without any login.
