Guideline 3.1.2 - Business - Payments - Subscriptions

Issue Description

The submission did not include all the required information for apps offering auto-renewable subscriptions.

The following information needs to be included in the App Store metadata:

Decoded Faith Empire  [Distribution](#) [TestFlight](#) [Xcode Cloud](#)

- A functional link to the Terms of Use (EULA). If you are using the [standard Apple Terms of Use \(EULA\)](#), include a link to the Terms of Use in the App Description. If you are using a custom EULA, [add it in App Store Connect](#).

Next Steps

Update the App Store metadata to include the information specified above.

Resources

Apps offering auto-renewable subscriptions must include all of the following required information in the app itself:

- Title of auto-renewing subscription (this may be the same as the in-app purchase product name)
- Length of subscription
- Price of subscription, and price per unit if appropriate
- Functional links to the privacy policy and Terms of Use (EULA)

The app metadata must also include functional links to the privacy policy in the Privacy Policy field in App Store Connect and the Terms of Use (EULA) in the App Description or EULA field in App Store Connect.

Review [Schedule 2 of the Apple Developer Program License Agreement](#) to learn more.
