Previews and Screenshots ?

Adding accurate screenshots of your app on the newest devices can help you represent the app's user experience. Keep in mind that we'll use these screenshots for all display sizes and localizations. Screenshots are only required for iOS apps, and only the first 3 will be used on the app installation sheets.

App Store Version Release

To make your app available on the App Store, you can automatically release it after it's been approved by App Review. You can also manually release it on the App Store at a later date.

- ☐ Manually release this version
- ☒ Automatically release this version
- ☐ Automatically release this version after App Review, no earlier than

Your local date and time.

February 26, 2026 1:00 AM

Feb 26, 2026 6:00 AM (GMT)

Phased Release for App Store Automatic Updates

Phased release for automatic updates lets you gradually release this update over a 7-day period to users who have turned on automatic updates from the App Store. Keep in mind that this version will still be available to all users as a manual update from the App Store. You can pause the phased release for up to 30 days or release this update to all users at any time. [Learn More](#)

- ☒ Release update to all users immediately
- ☐ Release update over 7-day period using phased release

Reset iOS App Store Summary Rating

You can reset your app's App Store summary rating for all countries or regions when you release this version. Keep in mind that once this version is released, you won't be able to restore the rating. Your app's existing customer reviews will still appear on the App Store. [View Ratings and Reviews](#)

- ☒ Keep existing rating
- ☐ Reset rating when this version is released
